## INTRODUCTION

---

I'm a passionate programmer with a self-learning attitude. Quick learner, skilled in new technologies and problem-solving. Delivers high-quality code with a focus on accessibility and responsive design. Collaborative team player, dedicated to crafting exceptional digital experiences.

## EXPERIENCE

---

### ● W3S Cloud Technology

*December 2021 - Now*

*Front-end Developer - Javascript, TypeScript, React*

- Build a Client Portal Project. How do they handle their client's projects, payment etc.
- Build an Investment portal using Zoho crm api.
- Build a Dashboard using react.js on Zoho CRM tasks, Emails, Calls, etc.
- Build a user CRM for some module data send into another module on Zoho CRM.
- Build an Extension for Zoho using Whats app api.
- Working on a payment portal using zoho crm api.

### ● Mastermind tours and travels

*April 2023 - Now*

*Front-end Developer - Javascript, TypeScript, React*

- I leveraged React, Tailwind CSS, and TypeScript to contribute to the tours and travel sector. My focus was on elevating the B2B panel and admin panel interfaces, enabling smooth collaboration for travel agents and streamlined management for administrators. I transformed design concepts into responsive interfaces, enhancing usability on both desktop and mobile platforms. By integrating UI/UX best practices and optimizing performance, I facilitated real-time inventory management, seamless booking processes, and insightful data visualization. My role demonstrated proficiency in React, Tailwind CSS, and TypeScript, translating design into functional, visually appealing experiences for users in the travel industry.

## PROGRAMMING SKILLS

---

- **Language:** Javascript, Typescript
- **Framework:** React, Next, Redux Toolkit, Tailwind , MUI
- **Tools:** Git, Figma

## EDUCATION

---

BSc in Software Engineering  
Daffodil International University

*May 2016- Dec 2020*
